Nanotech Security to Present at the East Coast IDEAS Investor Conference June 5, 2014

VANCOUVER, British Columbia – May 22, 2014 – Nanotech Security Corp. (TSXV: NTS) (OTCQX: NTSFF), today announced that CEO Doug Blakeway, will present at the East Coast IDEAS Investor Conference on Thursday June 5, 2014 at the Metro Meeting Center in Boston, Massachusetts. Nanotech Security's presentation is scheduled to begin at 9:10 a.m. EDT. A live and archived webcast of the presentation may be accessed at the conference website, www.IDEASConferences.com, or in the investor relations section of the company's website: www.nanosecurity.ca.

The stated mission of the IDEAS Conferences is to provide independent regional venues for select companies to present their investment merits to an influential audience of investment professionals. Unlike many bank-sponsored events, IDEAS Investor Conferences are organized for the buy-side rather than the sell-side of the market. With a motto of "Sponsored BY the Buy-side FOR the Buy-side" the conference especially benefits the regional investment communities. Conference sponsors collectively have more than \$200 Billion in assets under management and include: Barrow Hanley Mewhinney & Strauss, Eagle Boston Investment Management, Granahan Investment Management, Marble Harbor Investment Counsel, Gabelli Asset Management, GRT Capital Partners, LLC, Keeley Asset Management, Hodges Capital Management, Luther King Capital Management, Allianz Global Investors: NFJ Investment Group, Perritt Capital Management, Fidelity Investments, Ironwood Investment Management, Great Lakes Advisors, RENN Capital, Ariel Investments, Invicta Capital Management, LLC, William Harris Investors, Greenbrier Partners Capital Management, LLC, First Wilshire Securities Management, Inc., Constitution Research & Management, Inc.

The IDEAS Investor Conferences are held annually in Boston, Chicago and Dallas and are produced by Three Part Advisors, LLC. Additional information about the events can be located at www.IDEASconferences.com

About Nanotech Security

Nanotech Security Corp. has been a leading innovator in the design and commercialization of advanced security products and solutions for a number of years. Nanotech's *KolourOptik*[™] and *Plasmogram*[™] products are nanotechnology based optical product platforms originally inspired by the optical physics seen in the iridescent wings of the Blue Morpho butterfly. Nanotech images produce intense, high definition OVDs (optically variable devices) that are ideal for brand authentication and for distinguishing currency, documents, personal identification, consumer electronics, and other valuable items from counterfeit products. *KolourOptik* platform uses nano-sized (billionth of a meter) arrays of surface indentation

structures which use optical physics to create unique, easy to authenticate images through interaction of light. These nanostructures create vivid colour images in various natural and man-made substrates including metals and polymers that are activated by a simple tilt or rotation. The billions of nano-holes have resolutions higher than the best LED-displays and holograms.
